

BOX ON THE DOCKS

SAFE

- The safety of our community is of the utmost importance to us.
- Box on the Docks consists of individual dining units so that you and your household or support bubble can dine privately and maintain the Government guidance on social distancing.*
- The boxes are cleaned thoroughly between bookings as per Government guidelines.
- Each box is operated by the restaurant you are dining with, allowing adequate timing and measures to be implemented to ensure they are safe for your arrival.
- The restaurants will limit your interactions with staff, with QR code bookings, mobile payments, contactless or pay ahead options available (please check with the restaurant you have booked with to choose the best option for you).
- If you need to go inside one of the restaurants, for example to use the restroom, please wear a mask whilst queuing.

SPACIOUS

- Our uniquely designed and decorated boxes come in a range of sizes to accommodate two to six people.
- Our greenhouses and sheds blend the freedom and space of alfresco dining with the comfort and security of private indoor dining.
- Enjoy picturesque views across Salford's iconic quays or feel immersed in nature whilst dining in our award winning gardens.
- As well as our private dining boxes we have plenty of socially distanced seating. Whether you want to unwind with a coffee and a book, grab a takeaway cocktail or enjoy a picnic in our park, everyone can enjoy our space and have room to breathe.

SECURE

- We have a 24 hour manned security presence across the MediaCityUK estate.
- Each unit is locked in-between bookings.
- As well as each unit being fully risk assessed - each structure has had a full wind resilience test too, knowing what the weather is like in Salford!
- All activities taking place on site are in line with Government guidance and have also been risk assessed.

*Please note, in response to the Government's local lockdown of Greater Manchester implemented from 31/07/2020, our private dining pods will remain open for household groups and support bubbles to provide a safe and responsible dining experience. We request that if you have an upcoming booking and can no longer attend due to changes in guidelines, please contact the relevant restaurant.
